

Color disc, Sparkle & optical port

Fiber Optic Luminaire
Masonlite Cold cathode

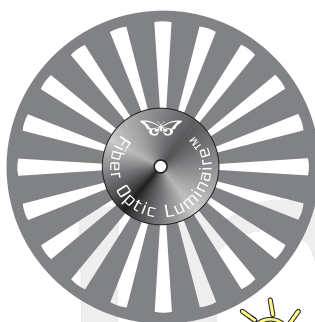

Several vibrant colors are available for a wide application. Gradual color changing, pre-set DMX control or continuous sparkle effect with variation of subtle blue & white dichroic chunks to mimic a realistic static clear starry night or twinkling effects. This versatility lends itself to a wide spectrum of innovative lighting ambience to suit many applications.

There are now 4 white shades available, specify colors and sequence when ordering.
